

Bettisworth North Architects and Planners, Inc. seeks an Architectural Associate/Design Professional for our Anchorage, Alaska office.

For those who are looking for relevance in their professional lives, for a firm that will provide an opportunity to be actively involved in community development, and for a place where your work makes a difference, our progressive firm seeks design professionals for long-term employment.

Individuals will actively participate in the firm's collaborative design process, working actively with clients, staff, consultants, and community members in a number of diverse and exciting building and community development projects.

A competitive salary and full benefits are offered. Bettisworth North will assist the successful applicant with relocation costs.

Please email your letter of interest, resume and portfolio to info@bettisworthnorth.com, Attn: Mark Kimerer.

Minimum applicant skills:

- A bachelors degree in architecture
- 2-5 years of work experience in the field of architecture
- The ability to read and understand architectural and engineering drawings, sketches and information, including the ability to communicate with others to clarify and coordinate project efforts
- The ability to produce architectural plan sets and details
- Proficiency in Autodesk Revit

Beneficial applicant skills:

- Experience or proficiency with additional design and graphic software to include Adobe Photoshop, Adobe InDesign, Adobe Illustrator, SketchUp and Autocad
